30" Single Electric Wall Oven with Total Convection

The Frigidaire Gallery 30" Single Wall Oven with Total Convection, features our most powerful and advanced convection system, which enables cooking modes like No Preheat, Air Fry, Slow Cook, Steam Bake, Steam Roast, Air Sous Vide, Convection Roast, Convection Bake, Bread Proof and more! Also includes a convenient temperature probe, a premium touch screen digital control panel and our fingerprint resistant, Smudge-Proof® Stainless Steel finish.

Available Colors: Black Stainless Steel, Stainless Steel

Version: 10/22

Consumer Benefits

Our most advanced and powerful convection system, Total Convection

Total Convection gives you maximum versatility in the kitchen, powering cooking modes like Air Fry, No Preheat, Slow Cook, Convection Bake, Steam Bake, Convection Roast, Steam Roast, Air Sous Vide, Bread Proof, Dehydrate and more!

Start baking immediately with No Preheat

Eliminates time wasted waiting on your oven to heat up - simply place your food in the cold oven and get to meal time, in no time.

No Preheat is best used for single-rack baking of frozen or pre-made items and food that needs to cook for longer than 10 minutes.

Deliver all of the flavor and none of the guilt with Air Fry.

Air Fry allows you to make healthier and delicious meals for the entire family, right in your oven.

Experience a hassle-free way to cook with Slow Cook

With Slow Cook, your food cooks slowly and at a lower temperature (as low as 100° F), allowing you to lock in moisture and flavor without over or undercooking your food.

Achieve bakery results at home with Steam Bake

With Steam Bake, steam evenly circulates throughout the oven cavity, resulting in breads and muffins that rise higher and are light and fluffy.

Take the guesswork out of cooking with the Temperature Probe

The Temperature Probe monitors and alerts when the desired finished cooking temperature has been reached.
