

STANDARD FEATURES

REFRIGERATOR TOP COMPRESSOR BOTTOM MOUNT

- EvenFlow Air Circulating Technology™ consists of independent ventilation for each compartment, providing even distribution of cold air flow and allows for uniform and precise temperature control ensuring better food preservation.
- EvenFlow Air Circulating Technology™ moves air through the compartment around the sides rather than back to front, creating an air curtain when the door is opened, keeping cold air from escaping and saving energy.
- Insulated dual variable speed compressors provide quiet operation, efficiency, precise temperature control, and minimal vibration.
- Concealed side-mounted evaporator design allows for a deeper interior than most cabinet depth, built-in refrigerators.

- The FreshSelect™ feature allows you to transform your bottom drawer into three independent electronically controlled cooling zones for maximum flexibility.:

- ◊ Classic refrigerator zone: From 34°F to 46°F, the recommended pre-set temperature is 42°F.
- ◊ Extend fresh refrigerator zone preserves fresh food longer. From 28°F to 36°F, the recommended pre-set temperature is 32°F.
- ◊ Freezer zone: From -11°F to +9°F, the recommended pre-set temperature is -1°F.

- Bead-blasted stainless steel refrigerator EverCrisp™ drawers are antimicrobial and prevent the growth of microorganisms and the spreading of germs.
- Bead-blasted, anti-microbial stainless steel storage drawers and bins have soft-close mechanisms allowing for silent and easy access to items.
- Aluminum adjustable shelf design (patent pending) provides practically limitless shelf positions with quick and easy adjustment without having to remove items. Once desired location is achieved you can lock the shelf into position.
- Heavy duty and elegant stainless steel interior liner.
- Multi-LED light array (top and side interior) provides brilliant illumination to the entire interior.
- Robust and unique hinge system for smooth door opening and self-closing. Hinge opens within itself, so side cabinetry is not compromised.
- Marquise™ accented door handle with commercial grade end caps.
- Adjust ice cube size between medium and large and also select the Fast Ice option to increase ice cube quantity.
- Holiday Mode can be set for up to 90 days for considerable energy savings.
- Max Cool Fresh Zone setting lowers the fridge / freezer compartment providing more rapid cooling of larger amounts of contents placed inside for a designated period of time.
- Beverage Cooler Mode chills beverages more quickly in the Fresh Zone drawer for up to 45 minutes.
- Marquise™ accented touch menu display is beautiful and easy to use.
- Marquise™ accented louver grill compliments design integrity.
- Water filtration with monitoring change reminder feature.
