- CADR Dust (101) / Smoke (92) / Pollen (109)
- ENERGY STAR® Rated, AHAM Verifide Tested, and California Air Resources Board (CARB) Certified

### **AIR PURIFICATION FROM A BRAND YOU TRUST**

You know the importance of indoor air quality. You should have an air purifier from a brand you trust. According to the EPA, when used properly, air purifiers can help reduce airborne contaminants, including viruses, in a home or confined space.

The FPF30UH Air Purifier by SHARP is the ideal choice for small rooms. Effective up to 1,650 sq. ft. at one air change per hour, the FPF30UH will filter the air in the AHAM Suggested Room Size of 341 sq ft. at 4.8 air changes per hour.

Raise your expectations of an air purifier and ensure a lower total cost of ownership over the years. Other brands may suggest replacing the filter every six months; that can really add up! The SHARP long-life True HEPA filter lasts up-to 2 years, depending on the environment. The FPF30UH meets the strict energy efficiency criteria to earn the ENERGY STAR® Rating. According to energystar.gov, Energy Star Rated products use less energy, save you money on your electricity bill, and help protect the environment by causing fewer harmful emissions from power plants.

The double filtration system helps clean the air that passes through the filters in two ways. The washable, microscreen pre-filter traps dust and other large airborne particles. Next, the True HEPA filter effectively captures 99.97% of particles from the air that passes through the filter from 0.3 microns and larger.

The FPF30UH is AHAM Verifide Tested and found to provide a Clean Air Delivery Rate (CADR) for three common irritants and allergens, Dust (101), Smoke (92), and Pollen (109). It is certified by the California Air Resources Board (CARB) to meet its strict emission standards.

The FPF30UH features Max, Med, and Sleep fan speeds, plus Express Clean, which runs for 60 minutes on Max before returning to the previous setting. The Library Quiet, Sleep setting is perfect for the bedroom, and the Auto-Resume feature remembers your last setting between uses.

It's no wonder people around the world trust SHARP. Now that is Simply Better Living.
