LG STUDIO Styler® Large Capacity Steam Clothing Care System with TrueSteam®

Elevate your space and your laundry routine with the power of steam

Caring for your clothing has never looked so good. LG STUDIO Styler® refreshes all kinds of fabrics in between washes—using only the gentle power of steam. It helps remove bacteria and allergens from hard-to-wash items without harsh chemicals or soaps, and gently dries delicates faster than air drying. The dehumidify feature even freshens the surrounding room and removes musty odors—all this from a sleek, stylish mirrored cabinet that looks perfect in any space.

Refresh & Deodorize

REFRESH EVERY DAY

Care System

Large capacity fits more items—with a mirror finish to spot-check your style

Refresh & Deodorize

REFRESH EVERY DAY WITH STEAM

- LG STUDIO Styler® uses TrueSteam® technology to easily care for denim, dress shirts and more, so you can keep things fresh every day
- From a quick refresh cycle that only takes 20 minutes, to longer specialty cycles, it works on more than 15 types of fabrics so you can keep wool, sequins, home linens and children's plush toys fresh
- Plus, it reduces odors without chemicals or harsh soaps

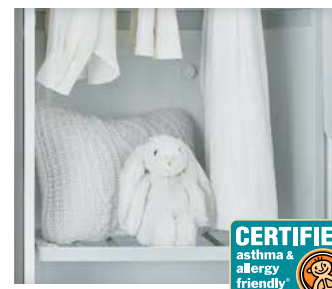

Helps Sanitize

HELPS SANITIZE FOR A HEALTHIER HOME

- Create a healthier home by easily sanitizing fabrics and everyday items that are difficult or impossible to wash at home
- LG STUDIO Styler® is CERTIFIED by the Asthma and Allergy Foundation of America because it can help remove allergens like pollen and over 99% of bacteria from fabrics including linens, decorative pillows, plush toys and more

Gentle Dry

GENTLE, FAST DRYING FOR DELICATES

- Spend less time waiting around for wet clothes to dry, thanks to gently moving hangers that provide better air circulation
- Dry delicates like lingerie and sweaters faster than air drying with a low-temperature drying system

Additional Features

Advanced Fabric Care at Home

ELEVATE YOUR LAUNDRY ROUTINE

- The LG STUDIO Styler® helps keep clothes looking their best, with more ways to refresh, sanitize and deodorize from home
- Uses the gentle power of steam to easily care for fabrics that can't be treated in traditional washers or high-heat tumble dryers

Go-Anywhere, Space-Saving Design

JUST PLUG IN TO REFRESH AND DEHUMIDIFY

- Plug into a standard 120v outlet, fill the portable water container with tap water and start refreshing—no plumbing needed
- Dehumidify feature is a space-saving way to eliminate damp air and musty smells in the surrounding room without a standalone dehumidifier
- Automatically shuts off when the water tank is full for easy emptying

NO
PLUMBING
NEEDED

Pants Crease

KEEP PANTS LOOKING THEIR BEST

- Keep pants looking their best by using the unique door panel to restore the crease and reduce wrinkles
- It's the perfect solution for business professionals or travelers

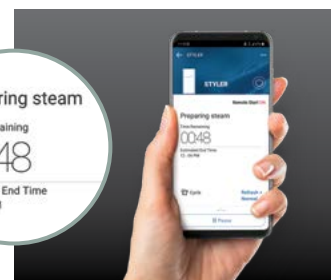

Smart Features

CONTROL LG STUDIO STYLER® FROM YOUR PHONE

- Control the LG STUDIO Styler® remotely with the ThinQ® app—check remaining cycle time, get cycle completion alerts, download special cycles and monitor energy usage
- It also works with popular voice-activated devices like the Google Assistant
